

Traffic Procedures

Morning Drop-Off Procedures:

- On Greenwood Avenue, form one car line on the right side and remain in this line until your child exits the vehicle.
- Once in front of Central School, all children should immediately exit on the right side of the vehicle.
- Students can be dropped off at any point along the front of Central School, regardless of the door students use to enter the building.
- Do not drop-off on South Avenue between Greenwood Avenue and Grove Street
- Vehicles should enter the left lane and proceed south on Greenwood Avenue when departing.
- Do not use or block the fire lane or leave cars unattended.

Afternoon Pickup Procedures:

- When picking up children from Central School, use the right lane only on Greenwood Avenue.
- Move your car as far south as possible on Greenwood Avenue when waiting for your child.
- As the car in front of you moves forward or enters the exit lane, pull forward to keep the pickup line moving as far south as possible.
- Use the left lane only for exiting the area.
- Do not park your vehicle on Hazel Avenue.
- When waiting for your child to exit the school building, do not block crosswalks or local driveways.
- Do not use or block the fire lane or leave your car unattended.

Alternatives to Consider:

- If possible, have your child walk to school.
- Identify an alternative location that is not directly in front of Central School to drop off or pick up your child.
- If possible, avoid turning south on Greenwood off of Hazel, as this creates difficulty entering the drop off/pick up lane.
