### **Access to Electronic Networks**

The District 35 Board Policy 6:235 – *Access to Electronic Networks* states:

Electronic networks, including the Internet, are a part of the District's instructional program in order to promote educational excellence by facilitating resource sharing, innovation, and communication. The Superintendent or designee shall develop an implementation plan for this policy and appoint a system administrator.

The School District is not responsible for any information that may be lost, damaged, or unavailable when using the network, or for any information that is retrieved or transmitted via the Internet. Furthermore, the District will not be responsible for any unauthorized charges or fees resulting from access to the Internet.

### Curriculum

The use of the District's electronic networks shall (1) be consistent with the curriculum adopted by the District as well as the varied instructional needs, learning styles, abilities, and developmental levels of the students, and (2) comply with the selection criteria for instructional materials and library-media center materials. Staff members may, consistent with the Superintendent's implementation plan, use the Internet throughout the curriculum.

The District's electronic network is part of the curriculum and is not a public forum for general use.

### Acceptable Use

All use of the District's electronic network must be (1) in support of education and/or research, and be in furtherance of the Board of Education's stated goal, or (2) for a legitimate business purpose. Use is a privilege, not a right. Students and staff members have no expectation of privacy in any material that is stored, transmitted, or received via the District's electronic network or District's computers. General rules for behavior and communications apply when using electronic networks. The District's *Authorization for Electronic Network Access* contains the appropriate uses, ethics, and protocol. Electronic communications and downloaded material, including files deleted from a user's account but not erased, may be monitored or read by school officials.

### Internet Safety

Each District computer with Internet access shall have a filtering device that blocks entry to visual depictions that are (1) obscene, (2) pornographic, or (3) harmful or inappropriate for students, as defined by the Children's Internet Protection Act and as determined by the Superintendent or designee. The Superintendent or designee shall enforce the use of such filtering devices. An administrator, supervisor, or other authorized person may disable the filtering device for bona fide research or other lawful purpose, provided the person receives prior permission from the Superintendent or designee. The Superintendent or designee shall include measures in this policy's implementation plan to address the following:

1. Limiting student access to inappropriate matter as well as restricting access to harmful materials;
2. Student safety and security when using electronic communications;
3. Limiting unauthorized access, including "hacking" and other unlawful activities; and
4. Limiting unauthorized disclosure, use, and dissemination of personal identification information.

### Authorization for Electronic Network Access

Each staff member must sign the District's *Authorization for Electronic Network Access* as a condition for using the District's electronic network. Each student and his or her parent(s)/guardian(s) must sign the *Authorization* before being granted unsupervised use.

All users of the District's computers and means of Internet access shall maintain the confidentiality of student records. Reasonable measures to protect against unreasonable access shall be taken before confidential information is loaded onto the network. The failure of any student or teacher to follow the terms of the *Authorization for Electronic Network Access*, or this policy, will result in the loss of privileges, disciplinary action, and/or appropriate legal action.

### **Accommodating Individuals with Disabilities**

Individuals with disabilities shall be provided an opportunity to participate in all school-sponsored services, programs, or activities on an equal basis to those without disabilities and will not be subject to illegal discrimination. Whenever necessary, the District may provide to persons with disabilities separate or different aids, benefits, or services from, but as effective as, those provided to others. Individuals with disabilities should notify the building principal or superintendent if their disability will require special assistance or service and, if so, what services are required. This notification should occur as far in advance as possible of the school-sponsored function, program or meeting.

### **Annual Asbestos Notification**

The U.S. Congress has enacted the Asbestos Hazard Emergency Response Act. Comprehensive regulations were developed to address asbestos problems in public and private elementary and secondary schools. These regulations require all schools to inspect for friable and non-friable asbestos, develop asbestos management plans that address asbestos hazards in school buildings and implement response actions in a timely manner.

The District #35 asbestos management plan contains information on inspections, reinspections, response actions and post-response action activities, including periodic reinspections and surveillance activities that are planned or in progress. The management plan is available for review in each school office during normal school hours. A reasonable charge will be assessed for photocopying the plan. If you have questions about asbestos related activities, please contact the Business Office at 847-835-7800.

### **Bring Your Own Device (BYOD) Program; Responsible Use and Conduct**

The District 35 Board Policy 6:220 – Bring Your Own Device (BYOD) Program; Responsible Use and Conduct states the BYOD program will:

1. Promote educational excellence by facilitating resource sharing, innovation, and communication to enhance (a) technology use skills; (b) web-literacy and critical thinking skills about Internet resources and materials, including making wise choices; and (c) habits for responsible digital citizenship required in the 21st century.
2. Provide sufficient wireless infrastructure within budget parameters.
3. Provide access to the Internet only through the District's electronic networks.
4. Identify approved BYOD devices and what District-owned technology devices may be available; e.g., laptops, tablet devices, and/or E-readers.
5. Align with Board policies 4:140, *Waiver of Student Fees*; 5:170, *Copyright*; 6:120, *Education of Children with Disabilities*; 6:235, *Access to Electronic Networks*; 7:140, *Search and Seizure*; 7:180, *Preventing Bullying, Intimidation, and Harassment*; 7:190, *Student Discipline*; and 7:340, *Student Records*.
6. Provide relevant staff members with BYOD professional development opportunities, including the provision of:
  - a. Classroom management information about issues associated with the program, e.g., technical support, responsible use, etc.;
  - b. A copy of or access to this policy and any building-specific rules for the program;
  - c. Additional training, if necessary, about 5:170, *Copyright*; and
  - d. Information concerning appropriate behavior of staff members as required by State law and policy 5:120, *Ethics and Conduct*.
7. Provide a method to inform parents/guardians and students about this policy.

8. Include the program in the annual report to the Board as required under policy 6:10, *Education Philosophy and Objectives*.

The District reserves the right to discontinue its BYOD program at any time. The District does not provide liability protection for BYOD devices, and it is not responsible for any damages to them.

#### Responsible Use

The District recognizes students participating in the program as responsible young adults and holds high expectations of their conduct in connection with their participation in the program. Teachers may encourage students to bring their own devices as supplemental in-class materials when: (a) using the devices will appropriately enhance, or otherwise illustrate, the subjects being taught; (b) the Building Principal has approved their use and found that their use is age-appropriate; and (c) the student's parent/guardian has signed the *Bring Your Own Device (BYOD) Program Participation Authorization and Responsible Use Agreement Form*. A student's right to privacy in his or her device is limited; any reasonable suspicion of activities that violate law or Board policies will be treated according to policy 7:140, *Search and Seizure*.

Responsible use in the program incorporates into this policy the individual's *Acceptable Use of Electronic Networks* agreement pursuant to policy 6:235, *Access to Electronic Networks*. Responsible use also incorporates the established usage and conduct rules in policy 7:190, *Student Discipline* for students. Failure to follow these rules and the specific BYOD program student guidelines may result in: (a) the loss of access to the District's electronic network and/or student's BYOD privileges; (b) disciplinary action pursuant to 7:190 *Student Discipline*, 7:200, *Suspension Procedures*, or 7:210, *Expulsion Procedures*; and/or (c) appropriate legal action, including referrals of suspected or alleged criminal acts to appropriate law enforcement agencies.

#### **Education of Homeless Children**

Each child of a homeless individual and each homeless youth has equal access to the same free, appropriate public education, as provided to other children and youths, including a public pre-school education. A "homeless child" is defined as provided in the McKinney Homeless Assistance Act and State law.

The Director of Finance and Operations shall act as a Liaison for Homeless Children to coordinate this policy's implementation. **For Assistance Contact:** Jason Edelheit at 847-835-7813 or [edelheij@glencoeschools.org](mailto:edelheij@glencoeschools.org)

A homeless child may attend the District school that the child attended when permanently housed or in which the child was last enrolled. A homeless child living in any District school's attendance area may attend that school.

The Director of Finance and Operations shall review and revise rules or procedures that may act as barriers to the enrollment of homeless children and youths. In reviewing and revising such procedures, consideration shall be given to issues concerning transportation, immunization, residency, birth certificates, school records and other documentation, and guardianship. Transportation shall be provided in accordance with the McKinney Homeless Assistance Act and State law. The Director of Finance shall give special attention to ensuring the enrollment and attendance of homeless children and youths who are not currently attending school. If a child is denied enrollment or transportation under this policy, the Liaison for Homeless Children shall immediately refer the child or his or her parent/guardian to the ombudsperson appointed by the Regional Superintendent and provide the child or his or her parent/guardian with a written explanation for the denial. Whenever a child and his or her parent/guardian who initially share the housing of another person due to loss of housing, economic hardship, or a similar hardship continue to share the housing, the Liaison for Homeless Children shall, after the passage of 18 months and annually thereafter, conduct a review as to whether such hardship continues to exist in accordance with State law.

## **Electronic Devices**

### Electronic Signaling Devices

Students may not use or possess electronic signaling (paging) devices or two-way radios on school property at any time, unless the Building Principal specifically grants permission.

### Cell Phones and Other Electronic Devices

The possession and use of smartphones, cell phones, and other electronic devices, other than paging devices and two-way radios, are subject to the following rules:

1. They must be kept out of sight and in an inconspicuous location, such as a backpack, purse, or locker.
2. They must be turned **off** during the regular school day unless the supervising teacher grants permission for them to be used or if needed during an emergency.
3. They may not be used in any manner that will cause disruption to the educational environment or will otherwise violate student conduct rules.
4. They may not be used for creating, sending, sharing, viewing, receiving, or possessing *indecent visual depictions* as defined in State law, i.e., *sexting*. Possession is prohibited regardless of whether the depiction violates State law. Any cellular phone or electronic device may be searched upon reasonable suspicion of sexting or other violations of policy. All sexting violations will require school administrators to follow student behavior policies in addition to contacting the police and reporting suspected child abuse or neglect when appropriate.

Electronic study aids may be used during the school day if:

1. Use of the device is provided in the student's IEP, or
2. Permission is received from the student's teacher; e.g., BYOD programs.

Examples of electronic devices that are used as study aids include devices with audio or video recording, iPods®, some cellular telephones, smartphones, laptop computers, and tablet computers or devices, e.g., iPads®.

Examples of electronic devices that are **not** used as study aids include: hand-held electronic games, CD players, MP3 players/iPods® used for a purpose other than a study aid, global positioning systems (GPS), radios, and cellular telephones (with or without cameras) used for a purpose other than a study aid.

The use of technology as educational material in a curriculum-based program is not a necessity but a privilege, and a student does not have an absolute right to use his or her electronic device while at school. Using technology as a study aid must always follow the established rules for the BYOD program. Using technology at all other times must always follow the established rules for cell phones and other electronic devices at school.

The School District is not responsible for the loss or theft of any electronic device brought to school.

## **Equal Education Opportunities**

School Board Policy 7:10 is a Sex Equity Policy which seeks to insure that all facilities and programs for one sex are comparable to the facilities and programs provided to the other sex for the same or equivalent activities. The District maintains a Non-Discrimination Coordinator. Persons who believe they have not yet received equal opportunities should report their claims to the Non-Discrimination Coordinator. The Coordinator's name and address are as follows: Dr. Catherine Wang 620 Greenwood Avenue Glencoe, IL 60022 (847) 835-7800.

## **Fee Waivers/ Free Textbook Loan & Free Or Reduced Lunches**

District #35 provides students with textbook and supplementary materials. A fee is charged to help cover this cost. Scholarships are available to assist students with the fee. To request a free loan of textbooks, parents should contact the school principal or Business Manager. District #35 also provides free or reduced cost student lunches. To obtain

more information concerning these programs contact: District #35 Business Office 620 Greenwood Avenue Glencoe, IL 60022 (847) 835-7800.

### **Food Allergies**

Public Act 96-0349, effective January 1, 2011, addresses safe and supportive environments for students with life-threatening allergies or chronic illnesses. Public Act 96-0349 requires school districts to annually inform parents of students with life-threatening allergies or life-threatening chronic illnesses of the applicable provisions of Section 504 of the Rehabilitation Act of 1973 and other applicable federal statutes, state statutes, federal regulations and state rules. The intent of this notice is to inform you of your student's rights and protections that promote safe participation in school programs.

If your student has a life-threatening allergy or life-threatening chronic illness, please notify either the Director of Pupil Services or the school nurse. Section 504 protects students from discrimination due to a disability that substantially limits a major life activity. If a student is suspected of having a qualifying disability under Section 504, the school will convene a Section 504 team to determine eligibility and as needed, appropriate supports and services to address the student's individual needs. Under Section 504, a student with a physical or mental impairment which substantially limits a major life activity, such as caring for oneself, performing manual tasks, walking, seeing, hearing, speaking, breathing, and learning, may meet the definition of a student with a disability. If the student has a qualifying disability, the 504 team will look at how the disability limits access to school programs and whether the student is eligible for protection from discrimination under Section 504. If the student is protected under Section 504, an individualized Section 504 Plan will be developed and implemented to provide the needed supports so that the student can access his or her education as effectively as students without disabilities. Not all students with life-threatening allergies and life-threatening chronic illnesses may be eligible under Section 504.

### **Harassment**

The District 35 Board Policy 7:20 - *Harassment of Students Prohibited* - states:

No person, including a District employee or agent, or student, shall harass, intimidate, or bully a student on the basis of actual or perceived: race; color; national origin; military status; unfavorable discharge from military service; sex; sexual orientation; gender identity; gender-related identity or expression; ancestry; age; religion; physical or mental disability; order of protection status; status of being homeless; actual or potential marital or parental status, including pregnancy; association with a person or group with one or more of the aforementioned actual or perceived characteristics; or any other distinguishing characteristic. The District will not tolerate harassing, intimidating conduct, or bullying whether verbal, physical, or visual, that affects the tangible benefits of education, that unreasonably interferes with a student's educational performance, or that creates an intimidating, hostile, or offensive educational environment. Examples of prohibited conduct include name-calling, using derogatory slurs, stalking, sexual violence, causing psychological harm, threatening or causing physical harm, threatened or actual destruction of property, or wearing or possessing items depicting or implying hatred or prejudice of one of the characteristics stated above.

Sexual harassment of students is prohibited. Any person, including a district employee or agent, or student, engages in sexual harassment whenever he or she makes sexual advances, requests sexual favors, and engages in other verbal or physical conduct of a sexual or sex-based nature, imposed on the basis of sex, that:

  - b. Creating an intimidating, hostile, or offensive educational environment;
  - c. Depriving a student of educational aid, benefits, services, or treatment; or
  - d. Making submission to or rejection of such conduct the basis for academic decisions affecting a student.

The terms “intimidating,” “hostile,” and “offensive” include conduct that has the effect of humiliation, embarrassment, or discomfort. Examples of sexual harassment include touching, crude jokes or pictures, discussions of sexual experiences, teasing related to sexual characteristics, and spreading rumors related to a person’s alleged sexual activities. The term *sexual violence* includes a number of different acts. Examples of sexual violence include, but are not limited to, rape, sexual assault, sexual battery, sexual abuse, and sexual coercion.

Students are encouraged to report claims or incidences of bullying, harassment, sexual harassment, or any other prohibited conduct to the Nondiscrimination Coordinator, Building Principal, Assistant Building Principal, Dean of Students, or a Complaint Manager. A student may choose to report to a person of the student’s same sex. Complaints will be kept confidential to the extent possible given the need to investigate. Students who make good faith complaints will not be disciplined.

An allegation that a student was a victim of any prohibited conduct perpetrated by another student shall be referred to the Building Principal, Assistant Building Principal, or Dean of Students for appropriate action. The Superintendent shall insert into this policy the names, addresses, and telephone numbers of the District’s current Nondiscrimination Coordinator and Complaint Managers. At least one of these individuals will be female, and at least one will be male.

The Superintendent shall use reasonable measures to inform staff members and students that the District will not tolerate sexual harassment, such as by including this policy in the appropriate handbooks.

Any District student who is determined, after an investigation, to have engaged in conduct prohibited by this policy will be subject to disciplinary action, including but not limited to, suspension and expulsion consistent with the discipline policy. Any person making a knowingly false accusation regarding prohibited conduct will likewise be subject to disciplinary action up to and including discharge, with regard to employees, or suspension and expulsion, with regard to students.

The District 35 Board Policy 7:180 - *Prevention of and Response to Bullying, Intimidation, and Harassment* - states: Bullying, intimidation, and harassment diminish a student’s ability to learn and a school’s ability to educate. Preventing students from engaging in these disruptive behaviors and providing all students equal access to a safe, non-hostile learning environment are important District goals.

Bullying on the basis of actual or perceived race, color, national origin, military status, unfavorable discharge status from the military service, sex, sexual orientation, gender identity, gender-related identity or expression, ancestry, age, religion, physical or mental disability, order of protection status, status of being homeless, or actual or potential marital or parental status, including pregnancy, association with a person or group with one or more of the aforementioned actual or perceived characteristics, or any other distinguishing characteristic is prohibited in each of the following situations:

1. During any school sponsored education program or activity.
2. While in school, on school property, on school buses or other school vehicles, at designated school bus stops waiting for the school bus, or at school sponsored or school sanctioned events or activities.

3. Through the transmission of information from a school computer, a school computer network, or other similar electronic school equipment.
4. Through the transmission of information from a computer that is accessed at a non school-related location, activity, function, or program or from the use of technology or an electronic device that is not owned, leased, or used by the School District or school if the bullying causes a substantial disruption to the educational process or orderly operation of a school. This paragraph (item #4) applies only when a school administrator or teacher receives a report that bullying through this means has occurred; it does not require staff members to monitor any non school-related activity, function, or program.

*Bullying* includes *cyber-bullying* and means any severe or pervasive physical or verbal act or conduct, including communications made in writing or electronically, directed toward a student that has or can be reasonably predicted to have the effect of one or more of the following:

1. Placing the student in reasonable fear of harm to the student's or students' person or property.
2. Causing a substantially detrimental effect on the student's or students' physical or mental health.
3. Substantially interfering with the student's or students' academic performance.
4. Substantially interfering with the student's or students' ability to participate in or benefit from the services, activities, or privileges provided by a school.

*Cyber-bullying* means bullying through the use of technology or any electronic communication, including without limitation any transfer of signs, signals, writing, images, sounds, data, or intelligence of any nature transmitted in whole or in part by a wire, radio, electromagnetic system, photo-electronic system, or photo-optical system, including without limitation electronic mail, Internet communications, instant messages, or facsimile communications. *Cyber-bullying* includes the creation of a webpage or weblog in which the creator assumes the identity of another person or the knowing impersonation of another person as the author of posted content or messages if the creation or impersonation creates any of the effects enumerated in the definition of *bullying*. *Cyber-bullying* also includes the distribution by electronic means of a communication to more than one person or the posting of material on an electronic medium that may be accessed by one or more persons if the distribution or posting creates any of the effects enumerated in the definition of *bullying*.

*Restorative measures* means a continuum of school-based alternatives to exclusionary discipline, such as suspensions and expulsions, that: (i) are adapted to the particular needs of the school and community, (ii) contribute to maintaining school safety, (iii) protect the integrity of a positive and productive learning climate, (iv) teach students the personal and interpersonal skills they will need to be successful in school and society, (v) serve to build and restore relationships among students, families, schools, and communities, and (vi) reduce the likelihood of future disruption by balancing accountability with an understanding of students' behavioral health needs in order to keep students in school.

*School personnel* means persons employed by, on contract with, or who volunteer in a school district, including without limitation school and school district administrators, teachers, school guidance counselors, school social workers, school counselors, school psychologists, school nurses, cafeteria workers, custodians, bus drivers, school resource officers, and security guards.

The Superintendent or designee shall develop and maintain a bullying prevention and response plan that advances the District's goal of providing all students with a safe learning environment free of bullying and harassment. This plan must be consistent with the requirements listed below; each numbered requirement, 1-12, corresponds with the same number in the list of required policy components in 105 ILCS 5/27-23.7(b) 1-12 :

1. The District uses the definition of *bullying* as provided in this policy.
2. Bullying is contrary to State law and the policy of this District. However, nothing in the District's bullying prevention and response plan is intended to infringe upon any right to exercise free expression or the free exercise of religion or religiously based views protected under the First Amendment to the U.S. Constitution or under Section 3 of Article I of the Illinois Constitution.

3. Students are encouraged to immediately report bullying. A report may be made orally or in writing to the District Complaint Manager or any staff member with whom the student is comfortable speaking. Anyone, including staff members and parents/guardians, who has information about actual or threatened bullying is encouraged to report it to the District Complaint Manager or any staff member. Anonymous reports are also accepted.

**Complaint Manager:**

Dr. Catherine Wang  
620 Greenwood Avenue  
wangc@glencoeschools.org  
847-835-7800

4. Consistent with federal and State laws and rules governing student privacy rights, the Superintendent or designee shall promptly inform the parent(s)/guardian(s) of every student involved in an alleged incident of bullying and discuss, as appropriate, the availability of social work services, counseling, school psychological services, other interventions, and restorative measures.
5. The Superintendent or designee shall promptly investigate and address reports of bullying, by, among other things:
  - a. Making all reasonable efforts to complete the investigation within 10 school days after the date the report of a bullying incident was received and taking into consideration additional relevant information received during the course of the investigation about the reported bullying incident.
  - b. Involving appropriate school support personnel and other staff persons with knowledge, experience, and training on bullying prevention, as deemed appropriate, in the investigation process.
  - c. Notifying the Building Principal or school administrator or designee of the reported incident of bullying as soon as possible after the report is received.
  - d. Consistent with federal and State laws and rules governing student privacy rights, providing parents/guardians of the students who are parties to the investigation information about the investigation and an opportunity to meet with the Building Principal or school administrator or his or her designee to discuss the investigation, the findings of the investigation, and the actions taken to address the reported incident of bullying.

The Superintendent or designee shall investigate whether a reported incident of bullying is within the permissible scope of the District's jurisdiction and shall require that the District provide the victim with information regarding services that are available within the District and community, such as counseling, support services, and other programs.

6. The Superintendent or designee shall use interventions to address bullying, that may include, but are not limited to, school social work services, restorative measures, social-emotional skill building, counseling, school psychological services, and community-based services.
7. A reprisal or retaliation against any person who reports an act of bullying **is prohibited**. A student's act of reprisal or retaliation will be treated as *bullying* for purposes of determining any consequences or other appropriate remedial actions.
8. A student will not be punished for reporting bullying or supplying information, even if the District's investigation concludes that no bullying occurred. However, knowingly making a false accusation or providing knowingly false information will be treated as *bullying* for purposes of determining any consequences or other appropriate remedial actions.
9. The District's bullying prevention and response plan must be based on the engagement of a range of school stakeholders, including students and parents/guardians.
10. The Superintendent or designee shall post this policy on the District's Internet website, if any, and include it in the student handbook, and, where applicable, post it where other policies, rules, and standards of conduct

are currently posted. The policy must also be distributed annually to parents/guardians, students, and school personnel, including new employees when hired.

11. The Superintendent or designee shall assist the Board with its evaluation and assessment of this policy's outcomes and effectiveness. This process shall include, without limitation:
  - a. The frequency of victimization;
  - b. Student, staff, and family observations of safety at a school;
  - c. Identification of areas of a school where bullying occurs;
  - d. The types of bullying utilized; and
  - e. Bystander intervention or participation.

The evaluation process may use relevant data and information that the District already collects for other purposes. The Superintendent or designee must post the information developed as a result of the policy evaluation on the District's website, or if a website is not available, the information must be provided to school administrators, Board members, school personnel, parents/guardians, and students.

12. The Superintendent or designee shall fully implement the Board policies, including without limitation, the following:
  - a. 2:260, *Uniform Grievance Procedure*. A student may use this policy to complain about bullying.
  - b. 6:60, *Curriculum Content*. Bullying prevention and character instruction is provided in all grades in accordance with State law.

  - e. 7:20, *Harassment of Students Prohibited*. This policy prohibits *any* person from harassing, intimidating, or bullying a student based on an identified actual or perceived characteristic (the list of characteristics in 7:20 is the same as the list in this policy).
  - f. 7:185, *Teen Dating Violence Prohibited*. This policy prohibits teen dating violence on school property, at school sponsored activities, and in vehicles used for school-provided transportation.

  - h. 7:310, *Restrictions on Publications*. This policy prohibits students from and provides consequences for: (1) accessing and/or distributing at school any written, printed, or electronic material, including material from the Internet, that will cause substantial disruption of the proper and orderly operation and discipline of the school or school activities, and (2) creating and/or distributing written, printed, or electronic material, including photographic material and blogs, that causes substantial disruption to school operations or interferes with the rights of other students or staff members.

## **Health Education**

As part of the District health education program, students are provided with instruction in recognizing and avoiding sexual abuse as required by The School Code of Illinois, Section 861-866 and 23 Illinois Administrative Code, Section 1.430(a, 7). Under these provisions, parents have the right to refuse, in writing, such instruction for their children. Parents wishing to exercise this right should write a letter of refusal for this instruction to their child's principal to cover the current academic year. A letter of refusal needs to be resubmitted for each school year. Parents are also advised that health education includes avoiding and preventing child abduction, drug and alcohol prevention, AIDS and, within the sex education curriculum at pertinent ages, the notion of abstinence until marriage as a method of birth control.

## **Integrated Pest Management**

It is the policy of District #35 to control pest problems in a way that poses the least hazard to human health and the environment. Therefore, an Integrated Pest Management (IPM) program is in place that is compliant with Illinois state law. IPM is a pest control program that combines prevention, non-chemical pest control methods, and the appropriate use of pesticides with preference for products that are the least harmful to human health and the environment. By addressing and correcting the root causes of pest problems, IPM can provide long-term, economical pest control while minimizing the potential risk posed by frequent pesticide applications.

The success of IPM depends on the involvement of many individuals. Students, school staff, administrators and parents are all participants in the IPM program. To have a positive impact on the District's goal to reduce pest problems, the following are requested when using school facilities:

1. Report pest sightings to a staff member
2. Clean up leftover or spilled food and beverages immediately
3. Store food, including animal food, in tightly sealed containers in designated areas
4. Keep refrigerators, vending machines, and microwaves clean and free of spills
5. Do not prop open windows, screens or doors that could allow pests to enter the school buildings
6. Remove trash
7. Keep areas dry and report leaks
8. Do not pressure school staff to apply pesticides; there are other effective means of controlling pest problems
9. Do not tamper with sticky traps, bait stations, bait boxes, or traps to monitor or kill pests

Please remember that spraying pesticides in school buildings without notifying parents and staff is illegal under Illinois state law. Notification will be made through the District website: [www.glencoeschools.org](http://www.glencoeschools.org). For more information on the District's pest control practices, IPM, or to register to receive written notification prior to application of pesticides on grounds or property contact the Director of Finance and Operations, Telephone: 847-835-7800 Fax: 847-835-7805.

## **Nondiscrimination**

Equal educational and extracurricular opportunities shall be available for all students without regard to color, race, nationality, religion, sex, sexual orientation, ancestry, age, physical or mental disability, gender identity, status of being homeless, order of protection status, actual or potential marital or parental status, including pregnancy.

## **Registered Sex Offenders**

In accordance with P.A. 94-994 parents of children attending school may access information regarding registered sex offenders and violent offenders against youth through the following Illinois State Police websites:

- The Illinois Sex Offender Registry: <http://www.isp.state.il.us/sor/>.

## **School Behavior**

The District #35 Board Policy 7:190 – *Student Behavior*— states:

The school administration is authorized to discipline students for gross disobedience or misconduct, including but not limited to:

1. Using, possessing, distributing, purchasing, or selling tobacco or nicotine materials, including without limitation, electronic cigarettes.
2. Using, possessing, distributing, purchasing, or selling alcoholic beverages. Students who are under the influence of an alcoholic beverage are not permitted to attend school or school functions and are treated as though they had alcohol in their possession.
3. Using, possessing, distributing, purchasing, selling, or offering for sale:
  - a. Any illegal drug or controlled substance, or cannabis (including medical cannabis, marijuana, and hashish).
  - b. Any anabolic steroid unless it is being administered in accordance with a physician's or licensed practitioner's prescription.

- c. Any performance-enhancing substance on the Illinois High School Association's most current banned substance list unless administered in accordance with a physician's or licensed practitioner's prescription.
- d. Any prescription drug when not prescribed for the student by a physician or licensed practitioner, or when used in a manner inconsistent with the prescription or prescribing physician's or licensed practitioner's instructions. The use or possession of medical cannabis, even by a student for whom medical cannabis has been prescribed, is prohibited.
- e. Any inhalant, regardless of whether it contains an illegal drug or controlled substance: (a) that a student believes is, or represents to be capable of, causing intoxication, hallucination, excitement, or dulling of the brain or nervous system; or (b) about which the student engaged in behavior that would lead a reasonable person to believe that the student intended the inhalant to cause intoxication, hallucination, excitement, or dulling of the brain or nervous system. The prohibition in this section does not apply to a student's use of asthma or other legally prescribed inhalant medications.
- f. Any substance inhaled, injected, smoked, consumed, or otherwise ingested or absorbed with the intention of causing a physiological or psychological change in the body, including without limitation, pure caffeine in tablet or powdered form.
- g. "Look-alike" or counterfeit drugs, including a substance that is not prohibited by this policy, but one: (a) that a student believes to be, or represents to be, an illegal drug, controlled substance, or other substance that is prohibited by this policy; or (b) about which a student engaged in behavior that would lead a reasonable person to believe that the student expressly or impliedly represented to be an illegal drug, controlled substance, or other substance that is prohibited by this policy.
- h. Drug paraphernalia, including devices that are or can be used to: (a) ingest, inhale, or inject cannabis or controlled substances into the body; and (b) grow, process, store, or conceal cannabis or controlled substances.

Students who are under the influence of any prohibited substance are not permitted to attend school or school functions and are treated as though they had the prohibited substance, as applicable, in their possession.

- 4. Using, possessing, controlling, or transferring a "weapon" as that term is defined in the Weapons section of this policy, or violating the Weapons section of this policy.
  - 5. Using or possessing an electronic paging device. Using a cellular telephone, video recording device, personal digital assistant (PDA), or other electronic device in any manner that disrupts the educational environment or violates the rights of others, including using the device to take photographs in locker rooms or bathrooms, cheat, or otherwise violate student conduct rules. Prohibited conduct specifically includes, without limitation, creating, sending, sharing, viewing, receiving, or possessing an indecent visual depiction of oneself or another person through the use of a computer, electronic communication device, or cellular phone. Unless otherwise banned under this policy or by the Building Principal, all electronic devices must be kept powered-off and out-of-sight during the regular school day unless: (a) the supervising teacher grants permission; (b) use of the device is provided in a student's individualized education program (IEP); (c) it is used during the student's lunch period, or (d) it is needed in an emergency that threatens the safety of students, staff, or other individuals.
  - 6. Using or possessing a laser pointer unless under a staff member's direct supervision and in the context of instruction.
  - 7. Disobeying rules of student conduct or directives from staff members or school officials. Examples of disobeying staff directives include refusing a District staff member's request to stop, present school identification, or submit to a search.
  - 8. Engaging in academic dishonesty, including cheating, intentionally plagiarizing, wrongfully giving or receiving help during an academic examination, altering report cards, and wrongfully obtaining test copies or scores.
  - 9. Engaging in hazing or any kind of bullying or aggressive behavior that does physical or psychological harm to a staff person or another student, or urging other students to engage in such conduct. Prohibited conduct specifically includes, without limitation, any use of violence, intimidation, force, noise, coercion, threats, stalking, harassment, sexual harassment, public humiliation, theft or destruction of property, retaliation, hazing, bullying, bullying using a school computer or a school computer network, or other comparable conduct.

10. Engaging in any sexual activity, including without limitation, offensive touching, sexual harassment, indecent exposure (including mooning), and sexual assault. This does not include the non-disruptive: (a) expression of gender or sexual orientation or preference, or (b) display of affection during non-instructional time.
11. Teen dating violence, as described in Board policy 7:185, *Teen Dating Violence Prohibited*.
12. Causing or attempting to cause damage to, or stealing or attempting to steal, school property or another person's personal property.
13. Entering school property or a school facility without proper authorization.
14. In the absence of a reasonable belief that an emergency exists, calling emergency responders (such as calling 911); signaling or setting off alarms or signals indicating the presence of an emergency; or indicating the presence of a bomb or explosive device on school grounds, school bus, or at any school activity.
15. Being absent without a recognized excuse; State law and School Board policy regarding truancy control will be used with chronic and habitual truants.
16. Being involved with any public school fraternity, sorority, or secret society, by: (a) being a member; (b) promising to join; (c) pledging to become a member; or (d) soliciting any other person to join, promise to join, or be pledged to become a member.
17. Being involved in gangs or gang-related activities, including displaying gang symbols or paraphernalia.
18. Violating any criminal law, including but not limited to, assault, battery, arson, theft, gambling, eavesdropping, vandalism, and hazing.
19. Making an explicit threat on an Internet website against a school employee, a student, or any school-related personnel if the Internet website through which the threat was made is a site that was accessible within the school at the time the threat was made or was available to third parties who worked or studied within the school grounds at the time the threat was made, and the threat could be reasonably interpreted as threatening to the safety and security of the threatened individual because of his or her duties or employment status or status as a student inside the school.
20. Operating an unmanned aircraft system (UAS) or drone for any purpose on school grounds or at any school event unless granted permission by the Superintendent or designee.
21. Engaging in any activity, on or off campus, that interferes with, disrupts, or adversely affects the school environment, school operations, or an educational function, including but not limited to, conduct that may reasonably be considered to: (a) be a threat or an attempted intimidation of a staff member; or (b) endanger the health or safety of students, staff, or school property.

For purposes of this policy, the term "possession" includes having control, custody, or care, currently or in the past, of an object or substance, including situations in which the item is: (a) on the student's person; (b) contained in another item belonging to, or under the control of, the student, such as in the student's clothing, backpack, or automobile; (c) in a school's student locker, desk, or other school property; or (d) at any location on school property or at a school-sponsored event.

Efforts, including the use of positive interventions and supports, shall be made to deter students, while at school or a school-related event, from engaging in aggressive behavior that may reasonably produce physical or psychological harm to someone else. The Superintendent or designee shall ensure that the parent/guardian of a student who engages in aggressive behavior is notified of the incident. The failure to provide such notification does not limit the Board's authority to impose discipline, including suspension or expulsion, for such behavior.

No disciplinary action shall be taken against any student that is based totally or in part on the refusal of the student's parent/guardian to administer or consent to the administration of psychotropic or psychostimulant medication to the student.

### Disciplinary Measures

School officials shall limit the number and duration of expulsions and out-of-school suspensions to the greatest extent practicable, and, where practicable and reasonable, shall consider forms of non-exclusionary discipline before using out-of-school suspensions or expulsions. School personnel shall not advise or encourage students to drop out

voluntarily due to behavioral or academic difficulties. Potential disciplinary measures include, without limitation, any of the following:

1. Notifying parent(s)/guardian(s).
2. Disciplinary conference.
3. Withholding of privileges.
4. Temporary removal from the classroom.
5. Return of property or restitution for lost, stolen, or damaged property.
6. In-school suspension. The Building Principal or designee shall ensure that the student is properly supervised.
7. After-school study or Saturday study provided the student's parent/guardian has been notified. If transportation arrangements cannot be agreed upon, an alternative disciplinary measure must be used. The student must be supervised by the detaining teacher or the Building Principal or designee.
8. Community service with local public and nonprofit agencies that enhances community efforts to meet human, educational, environmental, or public safety needs. The District will not provide transportation. School administration shall use this option only as an alternative to another disciplinary measure, giving the student and/or parent/guardian the choice.
9. Seizure of contraband; confiscation and temporary retention of personal property that was used to violate this policy or school disciplinary rules.
10. Suspension of bus riding privileges in accordance with Board policy 7:220, *Bus Conduct*.
11. Out-of-school suspension from school and all school activities in accordance with Board policy 7:200, *Suspension Procedures*. A student who has been suspended may also be restricted from being on school grounds and at school activities.
12. Expulsion from school and all school activities for a definite time period not to exceed 2 calendar years in accordance with Board policy 7:210, *Expulsion Procedures*. A student who has been expelled may also be restricted from being on school grounds and at school activities.
13. Transfer to an alternative program if the student is expelled or otherwise qualifies for the transfer under State law. The transfer shall be in the manner provided in Article 13A or 13B of the School Code.
14. Notifying juvenile authorities or other law enforcement whenever the conduct involves criminal activity, including but not limited to, illegal drugs (controlled substances), "look-alikes," alcohol, or weapons or in other circumstances as authorized by the reciprocal reporting agreement between the District and local law enforcement agencies.

The above list of disciplinary measures is a range of options that will not always be applicable in every case. In some circumstances, it may not be possible to avoid suspending or expelling a student because behavioral interventions, other than a suspension and expulsion, will not be appropriate and available, and the only reasonable and practical way to resolve the threat and/or address the disruption is a suspension or expulsion.

Corporal punishment is prohibited. Corporal punishment is defined as slapping, paddling, or prolonged maintenance of students in physically painful positions, or intentional infliction of bodily harm. Corporal punishment does not include reasonable force as needed to maintain safety for students, staff, or other persons, or for the purpose of self-defense or defense of property.

### Weapons

A student who is determined to have brought one of the following objects to school, any school-sponsored activity or event, or any activity or event that bears a reasonable relationship to school shall be expelled for a period of at least one calendar year but not more than 2 calendar years:

1. A firearm, meaning any gun, rifle, shotgun, or weapon as defined by Section 921 of Title 18 of the United States Code (18 U.S.C. § 921), firearm as defined in Section 1.1 of the Firearm Owners Identification Card Act (430 ILCS 65/), or firearm as defined in Section 24-1 of the Criminal Code of 1961 (720 ILCS 5/24-1).

2. A knife, brass knuckles, or other knuckle weapon regardless of its composition, a billy club, or any other object if used or attempted to be used to cause bodily harm, including “look alike” of any firearm as defined above.

The expulsion requirement under either paragraph 1 or 2 above may be modified by the Superintendent, and the Superintendent’s determination may be modified by the Board on a case-by-case basis. The Superintendent or designee may grant an exception to this policy, upon the prior request of an adult supervisor, for students in theatre, cooking, ROTC, martial arts, and similar programs, whether or not school-sponsored, provided the item is not equipped, nor intended, to do bodily harm.

This policy’s prohibitions concerning weapons apply regardless of whether: (1) a student is licensed to carry a concealed firearm, or (2) the Board permits visitors, who are licensed to carry a concealed firearm, to store a firearm in a locked vehicle in a school parking area.

#### Re-Engagement of Returning Students

The Superintendent or designee shall maintain a process to facilitate the re-engagement of students who are returning from an out-of-school suspension, expulsion, or an alternative school setting. The goal of re-engagement shall be to support the student’s ability to be successful in school following a period of exclusionary discipline and shall include the opportunity for students who have been suspended to complete or make up work for equivalent academic credit.

#### Required Notices

A school staff member shall immediately notify the office of the Building Principal in the event that he or she: (1) observes any person in possession of a firearm on or around school grounds; however, such action may be delayed if immediate notice would endanger students under his or her supervision, (2) observes or has reason to suspect that any person on school grounds is or was involved in a drug-related incident, or (3) observes a battery committed against any staff member. Upon receiving such a report, the Building Principal or designee shall immediately notify the local law enforcement agency, State Police, and any involved student’s parent/guardian. “School grounds” includes modes of transportation to school activities and any public way within 1000 feet of the school, as well as school property itself.

#### Delegation of Authority

Each teacher, and any other school personnel when students are under his or her charge, is authorized to impose any disciplinary measure, other than suspension, expulsion, corporal punishment, or in-school suspension, that is appropriate and in accordance with the policies and rules on student discipline. Teachers, other licensed educational employees, and other persons providing a related service for or with respect to a student, may use reasonable force as needed to maintain safety for other students, school personnel, or other persons, or for the purpose of self-defense or defense of property. Teachers may temporarily remove students from a classroom for disruptive behavior.

The Superintendent, Building Principal, Assistant Principal, or Dean of Students is authorized to impose the same disciplinary measures as teachers and may suspend students guilty of gross disobedience or misconduct from school (including all school functions) and from riding the school bus, up to 10 consecutive school days, provided the appropriate procedures are followed. The Board may suspend a student from riding the bus in excess of 10 school days for safety reasons.

#### Student Handbook

The Superintendent, with input from the parent-teacher advisory committee, shall prepare disciplinary rules implementing the District’s disciplinary policies. These disciplinary rules shall be presented annually to the Board for its review and approval.

A student handbook, including the District disciplinary policies and rules, shall be distributed to the students’ parents/guardians within 15 days of the beginning of the school year or a student’s enrollment.

## **Searches**

In order to maintain safety, order and discipline in District #35, searches of students, their personal belongings, and their assigned student lockers may be necessary. Student lockers are the property of the Board of Education in which the student has no reasonable expectation of privacy. The administration may search school property, including lockers, through the use of specially trained dogs to locate illegal substances. The District 35 Board Policy 7:140 states:

In order to maintain order and security in the schools, school authorities are authorized to conduct reasonable searches of school property and equipment, as well as of students and their personal effects. "School authorities" includes school liaison police officers.

#### School Property and Equipment as well as Personal Effects Left There by Students

School authorities may inspect and search school property and equipment owned or controlled by the school (such as, lockers, desks, and parking lots), as well as personal effects left there by a student, without notice to or the consent of the student. Students have no reasonable expectation of privacy in these places or areas or in their personal effects left there.

The Superintendent may request the assistance of law enforcement officials to conduct inspections and searches of lockers, desks, parking lots, and other school property and equipment for illegal drugs, weapons, or other illegal or dangerous substances or materials, including searches conducted through the use of specially trained dogs.

#### Students

School authorities may search a student and/or the student's personal effects in the student's possession (such as, purses, wallets, knapsacks, book bags, lunch boxes, etc.) when there is a reasonable ground for suspecting that the search will produce evidence the particular student has violated or is violating either the law or the District's student conduct rules. The search itself must be conducted in a manner that is reasonably related to its objective and not excessively intrusive in light of the student's age and sex, and the nature of the infraction.

When feasible, the search should be conducted as follows:

1. Outside the view of others, including students,
2. In the presence of a school administrator or adult witness, and
3. By a certificated employee or liaison police officer of the same sex as the student.

Immediately following a search, a written report shall be made by the school authority who conducted the search, and given to the Superintendent.

#### Seizure of Property

If a search produces evidence that the student has violated or is violating either the law or the District's policies or rules, such evidence may be seized and impounded by school authorities, and disciplinary action may be taken. When appropriate, such evidence may be transferred to law enforcement authorities.

#### Notification Regarding Student Accounts or Profiles on Social Networking Websites

School officials may not request or require a student or his or her parent/guardian to provide a password or other related account information to gain access to the student's account or profile on a social networking website.

School officials may conduct an investigation or require a student to cooperate in an investigation if there is specific information about activity on the student's account on a social networking website that violates a school disciplinary rule or policy. In the course of an investigation, the student may be required to share the content that is reported in order to allow school officials to make a factual determination.

### **State/Federal Programs**

Glencoe School District #35 receives monies from the State of Illinois and Federal Programs such as: Title I and Title II (Teacher Quality). As specified in many of these grants, parents and community members are encouraged to submit ideas that may be pertinent to these grants. To learn more about these programs, contact the District Office at 847-835-7800.

## **Social Media**

The District #35 Board Policy 5:125 – *Personal Technology and Social Media; Usage and Conduct* — states:

### Usage and Conduct

All District employees who use personal technology and social media shall:

1. Adhere to the high standards for appropriate school relationships required by policy 5:120, *Ethics and Conduct* at all times, regardless of the ever-changing social media and personal technology platforms available. This includes District employees posting images or private information about themselves or others in a manner readily accessible to students and other employees that is inappropriate as defined by policy 5:20, *Workplace Harassment Prohibited*; 5:120, *Ethics and Conduct*; 6:235, *Access to Electronic Networks*; 7:20, *Harassment of Students Prohibited*; and the Ill. Code of Educator Ethics, 23 Ill. Admin.Code §22.20.
2. Choose a District-provided or supported method whenever possible to communicate with students and their parents/guardians.
3. Not interfere with or disrupt the educational or working environment, or the delivery of education or educational support services.
4. Comply with policy 5:130, *Responsibilities Concerning Internal Information*. This means that personal technology and social media may not be used to share, publish, or transmit information about or images of students and/or District employees without proper approval. For District employees, proper approval may include implied consent under the circumstances.
5. Refrain from using the District's logos without permission and follow Board policy 5:170, *Copyright*, and all District copyright compliance procedures.
6. Use personal technology and social media for personal purposes only during non-work times or hours. Any duty-free use must occur during times and places that the use will not interfere with job duties or otherwise be disruptive to the school environment or its operation.
7. Assume all risks associated with the use of personal technology and social media at school or school-sponsored activities, including students' viewing of inappropriate Internet materials through the District employee's personal technology or social media. The Board expressly disclaims any responsibility for imposing content filters, blocking lists, or monitoring of its employees' personal technology and social media.
8. Be subject to remedial and any other appropriate disciplinary action for violations of this policy ranging from prohibiting the employee from possessing or using any personal technology or social media at school to dismissal and/or indemnification of the District for any losses, costs, or damages, including reasonable attorney fees, incurred by the District relating to, or arising out of, any violation of this policy.

The Superintendent shall:

1. Inform District employees about this policy during the in-service on educator ethics, teacher-student conduct, and school employee-student conduct required by Board policy 5:120, *Ethics and Conduct*.
2. Direct Building Principals to annually:
  - a. Provide their building staff with a copy of this policy.
  - b. Inform their building staff about the importance of maintaining high standards in their school relationships.
  - c. Remind their building staff that those who violate this policy will be subject to remedial and any other appropriate disciplinary action up to and including dismissal.
3. Build awareness of this policy with students, parents, and the community.
4. Ensure that no one for the District, or on its behalf, requests of an employee or applicant access in any manner to his or her social networking website or requests passwords to such sites.
5. Periodically review this policy and any procedures with District employee representatives and electronic network system administrator(s) and present proposed changes to the Board.

## **Student Concussions and Head Injuries**

The District #35 Board Policy 7:305 – *Student Athlete Concussions and Head Injuries*— states:

The Superintendent or designee shall develop and implement a program to manage concussions and head injuries suffered by students. The program shall prepare for the full implementation of the Youth Sports Concussion Safety Act, that provides, without limitation, each of the following:

The Superintendent must appoint members of a Concussion Oversight Team for the District.

The Concussion Oversight Team shall establish each of the following based on peer-reviewed scientific evidence consistent with guidelines from the Centers for Disease Control and Prevention:

- ✓ A return-to-play protocol governing a student's return to interscholastic athletics practice or competition following a force of impact believed to have caused a concussion. The Superintendent or designee shall supervise an athletic trainer or other person responsible for compliance with the return-to-play protocol.
- ✓ A return-to-learn protocol governing a student's return to the classroom following a force of impact believed to have caused a concussion. The Superintendent or designee shall supervise the person responsible for compliance with the return-to-learn protocol.
- ✓ Each student and the student's parent/guardian shall be required to sign a concussion information receipt form each school year before participating in an interscholastic athletic activity.
- ✓ A student shall be removed from an interscholastic athletic practice or competition immediately if any of the following individuals believes that the student sustained a concussion during the practice and/or competition: a coach, a physician, a game official, an athletic trainer, the student's parent/guardian, the student, or any other person deemed appropriate under the return-to-play protocol.
- ✓ A student who was removed from interscholastic athletic practice or competition shall be allowed to return only after all statutory prerequisites are completed, including without limitation, the return-to-play and return-to-learn protocols developed by the Concussion Oversight Team. An athletic team coach or assistant coach may not authorize a student's return-to-play or return-to-learn.

The following individuals must complete concussion training as specified in the Youth Sports Concussion Safety Act: all coaches or assistant coaches (whether volunteer or a district employee) of interscholastic athletic activities; nurses who serve on the Concussion Oversight Team; athletic trainers; game officials of interscholastic athletic activities; and physicians who serve on the Concussion Oversight Team.

The Board shall approve school-specific emergency action plans for interscholastic athletic activities to address the serious injuries and acute medical conditions in which a student's condition may deteriorate rapidly.

Comply with the concussion protocols, policies, and by-laws of the Illinois High School Association, including its *Protocol for NFHS Concussion Playing Rules* and its *Return to Play Policy*. These specifically require that:

A student athlete who exhibits signs, symptoms, or behaviors consistent with a concussion in a practice or game shall be removed from participation or competition at that time.

A student athlete who has been removed from an interscholastic contest for a possible concussion or head injury may not return to that contest unless cleared to do so by a physician licensed to practice medicine in all its branches in Illinois or a certified athletic trainer.

If not cleared to return to that contest, a student athlete may not return to play or practice until the student athlete has provided his or her school with written clearance from a physician licensed to practice medicine in all its branches in Illinois or a certified athletic trainer working in conjunction with a physician licensed to practice medicine in all its branches in Illinois.

Require all student athletes to view the Illinois High School Association's video about concussions.

Inform student athletes and their parents/guardians about this policy in the *Agreement to Participate* or other written instrument that a student athlete and his or her parent/guardian must sign before the student is allowed to participate in a practice or interscholastic competition.

Provide coaches and student athletes and their parents/guardians with educational materials from the Illinois High School Association regarding the nature and risk of concussions and head injuries, including the risks inherent in continuing to play after a concussion or head injury.

Include a requirement for staff members to notify the parent/guardian of a student who exhibits symptoms consistent with that of a concussion.

## **Student Medications**

The District #35 Board Policy 7:270 – *Administering Medicine to Students*— states:

Students should not take medication during school hours or during school-related activities unless it is necessary for a student's health and well-being. When a student's licensed health care provider and parent(s)/guardian(s) believe that it is necessary for the student to take a medication during school hours or school-related activities, the parent/guardian must request that the school dispense the medication to their child/ward and otherwise follow the District's procedures on dispensing medication.

No School District employee shall administer to any student, or supervise a student's self-administration of, any prescription or non-prescription medication until a completed and signed "School Medication Authorization Form" is submitted by the student's parents(s)/guardian(s). No student shall possess or consume any prescription or non-prescription medication on school grounds or at a school-related function other than as provided for in this policy and its implementing procedures.

Nothing in this policy shall prohibit any school employee from providing emergency assistance to students, including administering medication.

The Building Principal shall include this policy in the Student Handbook and shall provide a copy to the parents/guardians of students.

### Self-Administration of Medication

A student may possess an epinephrine auto-injector (EPI-Pen®) and/or medication prescribed for asthma for immediate use at the student's discretion, provided the student's parent(s)/guardian(s) have completed and signed a "School Medication Authorization Form." The School District shall incur no liability, except for willful and wanton conduct, as a result of any injury arising from a student's self-administration of medication or an epinephrine auto-injector or the storage of any medication by school personnel. A student's parent(s)/guardian(s) must indemnify and hold harmless the School District and its employees and agents, against any claims, except a claim based on willful and wanton conduct, arising out of a student's self-administration of an epinephrine auto-injector and/or medication, or the storage of the medication by school personnel.

### School District Supply of Undesignated Epinephrine Auto-Injectors

The Superintendent or designee shall implement Section 22-30(f) of the School Code and maintain a supply of undesignated epinephrine auto-injectors in the name of the District and provide or administer them as necessary according to State law. *Undesignated epinephrine auto-injector* means an epinephrine auto-injector prescribed in the name of the District or one of its schools. A school nurse or trained personnel, as defined in State law, may administer an undesignated epinephrine auto-injector to a person when they, in good faith, believe a person is having an anaphylactic reaction.

This section of the policy is void whenever the Superintendent or designee is, for whatever reason, unable to: (1) obtain for the District a prescription for undesignated epinephrine auto-injectors from a physician or advanced practice nurse licensed to practice medicine in all its branches, or (2) fill the District's prescription for undesignated

school epinephrine auto-injectors. Upon any administration of an undesignated epinephrine auto-injector, the Superintendent or designee(s) must ensure all notifications required by State law and administrative procedures occur. Upon implementation of this policy, the protections from liability and hold harmless provisions as explained in Section 22-30(c) of the School Code apply.

No one, including without limitation parents/guardians of students, should rely on the District for the availability of an epinephrine auto-injector. This policy does not guarantee the availability of an epinephrine auto-injector; students and their parents/guardians should consult their own physician regarding this medication.

## **Student Records**

The District maintains two types of school records for each student: *permanent* record and *temporary* record. These records may be integrated.

The *permanent record* shall include:

- Basic identifying information, including the student's name and address, birth date and place, gender, and the names and addresses of the student's parent(s)/guardian(s)
- Academic transcripts, including grades, graduation date, grade level achieved, and the unique student identifier assigned by the Illinois State Board of Education.
- Attendance record
- Health records (medical and dental documentation necessary for enrollment)
- Record of release of permanent record information

No other information shall be kept in the permanent record. The permanent record shall be maintained for at least 60 years after the student graduates, withdraws, or transfers from the District.

All information not required to be kept in the student permanent record is kept in the student *temporary record* and must include:

- Scores received on the State assessment tests administered in the elementary grade levels (that is, kindergarten through grade 8)
- Completed home language survey
- Information regarding serious infractions (that is, those involving drugs, weapons, or bodily harm to another) that resulted in expulsion, suspension, or the imposition of punishment or sanction
- Information provided under the Abused and Neglected Child Reporting Act (325 ILCS 5/8.6), including any final finding report received from a Child Protective Service Unit
- Health related information (current documentation of a student's health information relevant to school and extracurricular participation, not required for enrollment and not otherwise governed by the Mental Health and Developmental Disabilities Confidentiality Act (740 ILCS 110)(e.g., glucose readings, student athletes' and parents' acknowledgement of the District's concussion policy, medication and dispensation records and logs, etc.)
- Accident Reports
- Any documentation of a student's transfer
- A record of release of temporary record information

The *temporary record* may include:

- Family background information
- Intelligence test scores, group and individual
- Aptitude test scores
- Reports of psychological evaluations
- Elementary achievement level test results
- Teacher anecdotal records
- Other disciplinary information

- Special education records
- Verified reports or information from non-educational persons, agencies, or organizations of clear relevance to the student's education
- Section 504 records
- Participation in extracurricular activities, including any offices held in school-sponsored clubs or organizations
- Honors and awards received

The Building Principal is the records custodian for his or her respective building and is responsible for the maintenance, care, and security of a student's permanent or temporary records. Upon a student's graduation, transfer, or permanent withdrawal, the Building Principal or designee shall notify the parent(s)/guardian(s) and the student when the student's permanent and temporary school records are scheduled to be destroyed and of their right to request a copy. Before any school student record is destroyed or information deleted therefrom, the parent/guardian must be given reasonable prior notice at his or her last known address and an opportunity to copy the record and information proposed to be destroyed or deleted. Permanent records are kept for 60 years after the student leaves the District. Temporary records are kept for the period of their usefulness to school, but in no case less than 5 years after the student leaves the District. Student temporary records shall be reviewed at least every 4 years, or upon a student's change in attendance centers, whichever occurs first, to verify entries and correct inaccurate information. A parent has the right to copy any student record, or information contained in, proposed to be destroyed or deleted.

The Family Educational Rights and Privacy Act (FERPA) and the Illinois Student Records Act afford parents/guardians or "eligible students" (students over 18 years of age, graduated from secondary school, married, or entered into military service) certain rights with respect to the student's education records. They are:

1. **The right to inspect and copy the student's education records within 15 school days of the day the District receives a request for access.** The degree of access a student has to his or her records depends on the student's age. Students less than 18 years of age have the right to inspect and copy only their permanent record.
