

## How do I get my image into Photoshop Elements?

### Scenario 1: If you have files on your computer, removable drive, etc. ...

Open Adobe Photoshop Elements.

In Photoshop, choose **File > Open** and navigate to your image.

### Scenario 2: If you are using images from the internet...

Open Adobe Photoshop Elements.

Find the image you want on the internet and copy it.

In Photoshop, choose **File > New from Clipboard**.

#### **Tip:**

To copy an image from the internet, hold control + click (or right-click) and select **copy image**.
